

You've got to be on the SQUARE if you are going to build . . . and that's true whether it is a house or a business. Folks who think their customers are suckers don't last long. We know that is true . . . and that is just one of the many reasons why our policy has always been ON THE SQUARE!

### Veterans Will Have Checks by Nov. 20

Most of the record-breaking 50,000 veterans enrolled this fall in institutions of higher learning in the Los Angeles area will receive their subsistence checks from the Veterans Administration by Nov. 15, it was announced today by L. C. Chapman, manager of the VA Los Angeles Regional Office.

A total of 35,000 checks will be mailed out between Nov. 1 and Nov. 10 with veterans who have not been paid before receiving one check for both September and October subsistence. With few exceptions, all fall enrollees will be paid not later than Nov. 20.

The best way the veteran can help himself, Chapman said, is to refrain from writing or calling the VA about overdue subsistence checks until after Nov. 15.

Sudden death as a result of an industrial accident came to 495 California workers during the first nine months of 1948, Paul Sharenberg, State Director of Industrial Relations, announced today.

## Army Discloses 178 Torrance and Lomita Men Are Enlistees

Voluntary enlistments in the U. S. Army and U. S. Air Force since the reopening of the Torrance recruiting office now number 178 men from Torrance and Lomita, it was revealed this week by Recruiting Sergeants James R. Callison and Herman W. Schwartz.

Drawing attention to the fact that the two services will continue to rely on voluntary enlistments as the prime source of manpower, Sergeant Callison stated that the quota set up for this area has been met each month since the reopening of the recruiting office in June, 1947.

Men listed by name below have enlisted at this station and several of these service men are now attending officers candidate school, aviation cadet training and technical training schools. Recent enlistees now undergoing basic and refresher training will be assigned to one of the many technical schools offered to all qualified enlistees in the U. S. Army and U. S. Air Force, Callison said.
